Product highlights.

Outstanding craftsmanship.

The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

Robust.

Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

Convenient.

The screwdrivers are available in a set - either conveniently housed in ES inserts or TCS safety inlays, designed for use with STAHLWILLE tool trolleys and tool boxes.

Technologies and features.

Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

VDE DRALL+

Our VDE-DRALL+ handle is insulated to 1,000 V according to DIN EN 60900. It is non-slip and ergonomically shaped. An extended grip zone protects the fingers and a hand stop prevents the tool from accidentally slipping or rolling away.
